3. Engaging/connected to people (focus low need & prevention)

Action	Link to partnership or prevention discussions	By Whom	By When	Agreed with owner (y/n)
Community clinics by NCC in partnership with VCSE	Community cafes/bridges services- existing rural touring events, independence matters hub café/libraries/leisure centres/ shopping centres asda/coop	NCC		
Soft outcomes going into the decision making of future budget setting				
Promote through match but also outcomes and profile of prevention to public so that we can foster culture of giving to prevention services so that council can pay for acute				
Reconstruction of top slicing budgets approach and look at more efficient spending approach				
Co-creation of bids/projects to support prevention agenda	Forum with heads of orgs to discuss + NCC to discuss prevention agenda about			

	how to work effectively with view			
Can we change dialogue prevention and critical from children and old so that sports, education, arts, health can respond to users				

1. Making the best use of grassroots community activity & develop new				
Action	Link to partnership or prevention discussions	By Whom	By When	Agreed with owner (y/n)
Infrastructure to join up adult and children services. One point of data and entry				
Mechanism in procurement to incentivise partnership and collaboration (add to scoring)				
VCSE consolidation of market place – maintain quality – look at more frontline credibility				
District councils need to be fully involved as part of partnership well engaged with early help	Districts to co-ordinate partnerships			

NCC recognising what is being delivered by VCSE – linking the work without damaging reputation				
Meeting between heads of early help VCSE reps at parish council level – inviting anyone that is interested		Sarah Jones to set up session in Swaffham	Early Feb	Yes
Initial engagement who takes responsibility for this to happen				
Consult with citizens/service users to define what their community looks like and what resources they want – stat responsibility and 3 rd sector how can we coordinate this	District councils VCSE parish councils NCC			
Encouraging volunteering community engagement through schemes like 'time credits'				
Create mechanisms for sharing information about gaps in provision / existing services from VCSE to public sector	Parish councils/ district councils			
How do we empower/provide resource to the development of new services				
Locality commissioning to have knowledge of what existing in local area – not setting up new services, adding to competition				

4. Information sharing around individual cases				
Action	Link to partnership or prevention discussions	By Whom	By When	Agreed with owner (y/n)
Increased colocation	Data sharing			
Increased co-location of VCSE and PS				
Include VCS in discussion around hub models and development		Carole manning & Andrew corthorpe	Mid jan	Y
Get health round the table too – public health and CCGs		Jon Clemo?		
Shropshire model – voluntary and PS in co-location	Trust	Janka Rodziewicz + Veronica (Mitchell?)		
Norfolk Directory available to district council		Veronica	Feb	Y
NCAN referral system & wn hub		Janka & Carole Manning	Feb	Y
Promoting each other services actively & positively – presentations at systems leadership group VCSE also has to be +ve about each other				
Information pack for support available				
Develop discussion forums for service providers				y

Maintain directory of information on what is out there			CAN/momentum – Jon Clemo Systems leadership group	y
Improve link of NCC + vcse over discussions around data sharing protocols				
Children locality teams to work with VCSE – development of portal info directories – possible corporate partnership – maximise google search engine results			Tim Eyres	Y

2. Shared strategic planning, intelligence, evidence/impact				
Action	Link to partnership or prevention discussions	By Whom	By When	Agreed with owner (y/n)
Being explicit about agreed and shared objectives/outcomes	Task undertaken in session as practice- all sector to share with CAN			
Define the curves Issue, size, current, aspiration, trajectory – what agreed intelligence do we need?				
Define the impact what works well?				

How do we measure success?				
Longer term planning (flexibility) horizon scanning				
What resources are available? Capacity, collaborative bids				

5. Navigating through the support system better (once in it)				
Action	Link to partnership or prevention discussions	By Whom	By When	Agreed with owner (y/n)
Look at what has already been set-up and ensure its rational and the right people involved – need a great plan to coordinate all the hubs	Hubs in particular – grow connectivity within and between NCC/VCSE/Health + NCAN system		NCC/CCG/NCC	
Really good components in place being developed but must connect				
Pathways need to be open and transparent re how people find their way through systems e.g. criteria, this is what will happen				
Develop NCAN future in the appraisal of information sharing between agencies incl, NCC + health	At the moment between potential advice providers but could be open connectivity – links to each vol these to link the referral	NCAN NCC coordinating		

	system to real people			
Neighbourhood management boards work well in GY employing community connector				
Early hubs	How can we link all the 'hubs' together			
Wellbeing hubs				
Primary care hubs				
Norwich city council hubs	Agree and commit long-term sustainable funding
